WORK EXPERIENCE

UrbanHaven

Software Engineer

Noida, India

11/2025 - Present

- Built and maintained **UrbanHaven** website customer-facing platform using **Next.js**, **Tailwind CSS**, and **Firebase**, achieving **responsive UI** across all devices and **reducing page load time by 30%**.
- Developed an internal **CRM platform** featuring **lead management**, **role-based access control (RBAC)**, and **workflow automation**, streamlining business operations for the sales team.
- Integrated third-party services including **Meta Ads lead workflows** and **webhook automation**, improving **lead tracking efficiency** and **platform scalability**.

BossCoder Academy

Software Engineer

Noida, India

01/2025 - 10/2025

- Developed and integrated a feature on the student dashboard to track batch history**, allowing students to view previously assigned batches along with detailed reasons for batch transitions.
- Implemented AI mentor and in-house doubt support chat system** using **OpenAI APIs** replacing **Interakt**, reducing manual support effort by over **60%** and cost by **50%**.
- Revamped the **Admin Panel UI** using **React** and **Tailwind CSS**, improving **responsiveness by 40%**, **reducing load time by 30%**, and **decreasing user-reported bugs by 25%**.
- Migrated **40+ REST APIs from Flask to Node.js**, resulting in a **20–30%** reduction in response time and increased scalability across multiple services.

Conneqt Business Solutions Limited

Application Support Engineer

Jamshedpur, India

03/2023- 12/2024

- Managed application data backup, migration, and software/ system upgrades, ensuring **100%** data integrity and seamless transitions during critical project rollouts.
- Wrote complex **SQL queries in Oracle SQL to fetch the data**, and **identified critical bugs** that were further resolved resulting in faster turnaround times for customer queries by **75%**.
- Developed admin side analytics and reports to get the status of the tickets and time for resolution and **helped 5 member teams in faster resolution with more than 10 tickets refined per day**.
- Enhanced the agent-side ticketing system by developing and integrating additional filters, resulting in an **8% increase in resolution speed** for agents managing customer queries daily.

PROJECT EXPERIENCE

Music Listening App

02/2024- 04/2024

- Built a full-stack music streaming app with **React & MongoDB** serving 10M+ song catalog — improved query performance by **30%** through indexing optimizations.
- Designed an intuitive and responsive user interface using **HTML**, **CSS**, and **JavaScript**, ensuring a seamless experience across devices and Integrated **Music Listening Web API** for streaming & metadata retrieval.
- Replicated **80%** of Spotify core features including **playback**, **playlists**, and **reducing API response time by 30%** through query optimization.
- Tech: **HTML**, **CSS**, **JavaScript**, **MongoDB**, **Music Listening Web API** and **React**.

Ecommerce App

08/2023- 10/ 2023

- Built a **full-stack e-commerce** application with **React.js** featuring **product browsing**, **cart management**, and **JWT-based user authentication** — improved session duration by **20%** through optimized **UI/UX**.
- Devised user-friendly **JavaScript** enhancements that increased the average session duration by **20%**, created intuitive UI elements that guided users seamlessly through the app, resulting in measurable improvements in overall satisfaction.
- Key features** such as product browsing, user authentication, and shopping cart functionality on the Ecommerce platform.
- Tech: **HTML**, **CSS**, **JavaScript** and **React**

EDUCATION

Seemanta Engineering College

Bachelor of Technology - Electronics and Telecommunication

SGPA: 8.98

Odisha, India

08/2018- 08/ 2022

EXTRA-CURRICULAR ACTIVITIES

- Completed over 350+ coding challenges on Leetcode.
- Organised and facilitated Winter Special Camp for the **National Service Scheme (NSS)** in December 2021, providing volunteering experience to **200+ participants** from diverse backgrounds.

TECHNICAL SKILLS

Languages: C/C++, Python, TypeScript, JavaScript(ES6+), SQL, HTML/CSS

Frontend/Backend: React.js, Next.js, Redux, Tailwind CSS, Radix UI, Shadcn UI, Vite, Node.js, Express, Flask, Redis, REST APIs

Databases/Tools: MongoDB, PostgreSQL, MYSQL, Firestore, Git, Bash, VSCode, Postman, Figma, Linux, Babel, ESLint, GitHub
